- Review Minutes of July 10, 2014 Meeting
- 6:11 – 6:20 Discussion of Possible Recommendations for Hauler Liability Insurance Limits- Recommendation concerning Estate of Bowman Hauler License Application
- 6:21 – 6:45 T.E. Gifford e-mail Request of July 13, 2014 regarding Agenda Item: “I know you are looking for help from the committee members on what to put on the agenda for next month. I would like to find out what the cost of recycling is for the towns. I believe to achieve this one would need to use the formula that was used by the Study several years ago, it just needs to be updated. We need to know how much it is costing the towns to dispose of our trash at PERC, this should take in account the cash back the towns receive by meeting the GAT. I believe that the committee needs to know these two costs of our station in order to go forward. We also need to see the reports that have been sent to the Maine Department of Environmental Protection. I suggest that we be given the reports for the past 12 months in order to see where the towns are on our recycling requirements. It is my belief and I am sure you feel the same that the committee needs to see the whole picture and will also help the new committee members as well. I hope you agree and ask the Manager of the WTS to provide this information. I am sure he has easy access to the information and it would not take him long to put this together and send it to us in time for discussion at our next meeting. Thanks you”
- 6:46 – 7:15 Monika Magee e-mail Request of July 11, 2014 that the Committee reconsider the PAYT program, along with other options, such as Single Stream or WTS Householder Presort. Invite station managers (or town managers) that are working with PAYT to address the committee. Monika: “We need hard financial facts, in addition to hearing actual words about how well, or not, a PAYT system is working for their town.”
